

## **Fort Saskatchewan Community Hospital Fact Sheet**

A new hospital will be constructed in Fort Saskatchewan to replace the existing Fort Saskatchewan Health Centre.

The facility will include 38 acute care beds and expanded and modernized emergency and outpatient departments. The new hospital will not only serve the growing community of Fort Saskatchewan but also its neighbouring communities.

### **KEY SERVICES**

- 38 acute care beds
- Obstetrical program
- Surgical program including cataract surgeries
- Expanded/modernized 24/7 emergency services
- Dedicated outpatient department
- Laboratory, pharmacy and rehabilitation services
- Radiology services including CT scanner

A clinical support building will be linked to the hospital and will be home to:

- Primary care
- Public health
- Home care
- Mental health services
- Rehabilitation services
- Partner organizations: Child & Family Services, AADAC

The new hospital will be located on 94 Street between Southfort Drive and TWP Road 544.

Construction is expected to be completed by 2009.
